## 1 Introduction

The Commonwealth Bank of Australia (the Group) is an Authorised Deposit-taking Institution (ADI) regulated by the Australian Prudential Regulation Authority (APRA) under the authority of the Banking Act 1959.

This document is prepared in accordance with Board approved policy and APRA's prudential standard APS 330 "Public Disclosure". It presents information on the Group's capital adequacy and Risk Weighted Asset (RWA) calculations for credit risk including securitisation, market risk, Interest Rate Risk in the Banking Book (IRRBB) and operational risk.

This document also presents information on the Group's leverage and liquidity ratios and countercyclical capital buffer (CCyB) in accordance with prescribed methodologies.

The Group is required to report its assessment of capital adequacy on a Level 2 basis. Level 2 is defined as the consolidated banking group excluding the insurance and funds management businesses and entities through which securitisation of Group assets is conducted.

The Group is predominantly accredited to use the Advanced Internal Ratings Based (AIRB) approach for credit risk and Advanced Measurement Approach (AMA) for operational risk. The Group is also required to assess its traded market risk and IRRBB requirements under Pillar 1 of the Basel capital framework.

The external auditor (PwC) has performed certain procedures over the Pillar 3 report, including verifying disclosures are consistent with information contained in the Group's Profit Announcement, returns provided to APRA and source systems. PwC have provided recommendations to enhance the internal controls related to the calculation of RWAs and the Group has an action plan in place to implement these recommendations.

The Pillar 3 document is available on the Group's corporate website:

[www.commbank.com.au/investors](http://www.commbank.com.au/investors)

### The Group in Review

As at 31 December 2018, the Group's Basel III Common Equity Tier 1 (CET1), Tier 1 and Total Capital ratios as measured on an APRA basis were 10.8%, 12.9% and 15.8% respectively. The Basel III CET1 ratio was 16.5% on an internationally comparable basis as at 31 December 2018.

The Group's Leverage Ratio, which is defined as Tier 1 Capital as a percentage of total exposures was 5.6% at 31 December 2018 on an APRA basis and 6.4% on an internationally comparable basis.

The Liquidity Coverage Ratio (LCR) requires Australian ADIs to hold sufficient liquid assets to meet 30 day net cash outflows projected under an APRA-prescribed stress scenario. The Group maintained an average LCR of 131% in the December 2018 quarter.

On 1 January 2018, APRA introduced a Net Stable Funding Ratio (NSFR) requirement designed to encourage stable funding of core assets. APRA prescribed factors are used to determine the stable funding requirement of assets and the stability of alternative sources of funding. The Group's NSFR was 112% at 31 December 2018 quarter.

The Group regularly benchmarks and aligns its policy framework against existing prudential and regulatory standards. Potential developments in Australian and international standards, and global best practice, are also considered.

The Group continues to monitor and take actions to enhance its strengthening risk culture. This includes a risk appetite framework and a risk accountability (Three Lines of Defence) model. The Group has a formal Risk Appetite Framework that creates clear obligations and transparency over risk management and strategy decisions. The Three Lines of Defence model requires business management to operate responsibly by taking well understood and managed risks that are appropriately and adequately priced.

The application of the Group's risk management framework has been reflected in the Group's overall asset quality and capital position. In particular, the Group remains in a select group of banking institutions with a AA-/Aa3 credit rating. To maintain this strength, the Group continues to invest in its risk systems and management processes.

The Group's capital forecasting process and capital plans are in place to ensure a sufficient capital buffer above minimum levels is maintained at all times. The Group manages its capital by regularly and simultaneously considering regulatory capital requirements, rating agency views on the capital required to maintain the Group's credit rating, the market response to capital levels, stress testing and the Group's bottom up view of economic capital. These views then cascade into considerations on what capital level is targeted.

The Group's management of its capital adequacy is supported by robust capital management processes applied in each business unit. The results are integrated into the Group's consolidated regulatory and economic capital requirements, and risk-adjusted performance and pricing processes.

(1) Comparative information has been restated to conform to presentation in the current period.

(2) Analysis aligns with the 13 July 2015 APRA study titled "International capital comparison study".

## 2 Scope of Application

This document has been prepared in accordance with Board approved policy and reporting requirements set out in APS 330.

APRA adopts a tiered approach to the measurement of an ADI's capital adequacy:

- **Level 1:** the Parent Bank (Commonwealth Bank of Australia) and offshore branches (the Bank) and APRA approved Extended Licensed Entities (ELE);
- **Level 2:** the Consolidated Banking Group excluding the insurance and funds management businesses and the entities through which securitisation of Group assets is conducted; and
- **Level 3:** the conglomerate group including the Group's insurance and funds management businesses (the Group).

The Group is required to report its assessment of capital adequacy on a Level 2 basis. The head of the Level 2 Group is the Parent Bank (Commonwealth Bank of Australia). Additional disclosure of capital ratios relating to material ADIs within the Group together with CBA's own Level 1 capital ratios are included under APS 330 Table 6g of this report (page 6).

ASB Bank Limited (ASB) operates under Advanced Basel III status and is subject to regulation by the Reserve Bank of New Zealand (RBNZ). The RBNZ applies a similar

methodology to APRA in calculating regulatory capital requirements.

CommBank Europe Ltd (CBE) and PT Bank Commonwealth (PTBC) use Standardised Basel III methodology.

On 2 July 2018, the Group completed the sale of its life insurance business in New Zealand to AIA Group Limited (AIA).

On 1 November 2018, the Group completed the sale of Commonwealth Bank of South Africa (Holding Company) Limited (TymeDigital) to the minority shareholder, African Rainbow Capital.

### Restrictions on transfer of funds or regulatory capital within the Group

The transfer of regulatory capital and funding within the Group is subject to restrictions imposed by local regulatory requirements. In particular, APS 222 "Associations with Related Entities" establishes prudential limits on the level of exposure that the Bank may have to a related entity.

The Bank and all of the subsidiaries of the Group are adequately capitalised. There are no restrictions or other major impediments on the transfer of funds within the Group. There are no capital deficiencies in non-consolidated (regulatory) subsidiaries in the Group.

### APS 330 reporting structure

(1) Insurance and funds management operating subsidiaries. A detailed list of non-consolidated entities is provided in Appendix 11.5.

## 3 Capital

### Capital Adequacy

The Basel Committee on Banking Supervision (BCBS) has implemented a set of capital, liquidity and funding reforms known as “Basel III”. The objectives of the reforms are to increase the quality, consistency and transparency of capital, to enhance the risk coverage framework, and to reduce systemic and pro-cyclical risk. The major reforms including the application of the capital conservation buffer, were implemented on a phased approach up to 1 January 2019.

The capital reforms were implemented in Australia from 1 January 2013. APRA has adopted a more conservative approach than the minimum standards published by the BCBS and also adopted an accelerated timetable for implementation.

The APRA prudential standards require a minimum CET1 ratio of 4.5% effective from 1 January 2013. An additional CET1 capital conservation buffer of 3.5%, inclusive of a Domestic Systemically Important Bank (DSIB) requirement of 1% and a countercyclical capital buffer (CCyB)<sup>(1)</sup> of 0% (effective from 1 January 2016), bringing the CET1 requirement to at least 8%.

The Group has a range of instruments and methodologies available to effectively manage capital. These include share issues and buybacks, dividend and Dividend Reinvestment Plan (DRP) policies, hybrid capital raising and dated and undated subordinated debt issues. All major capital related initiatives require approval by the Board.

The Group’s capital position is monitored on a continuous basis and reported monthly to the Executive Leadership Team of the Group and at regular intervals throughout the year to the Risk Committee. Three year capital forecasts are conducted on a quarterly basis and a detailed capital and strategic plan is presented to the Board annually.

### Capital Management

The Bank’s CET1 ratio (APRA) was 10.8% as at 31 December 2018, an increase of 70 basis points on 30 June 2018 and 40 basis points on 31 December 2017. The CET1 ratio was consistently well in excess of regulatory minimum capital adequacy requirements at all times throughout the half year ended 31 December 2018.

The increase of 70 basis points for the half year ended 31 December 2018 was primarily driven by capital generated from earnings, a net reduction in total Risk Weighted Assets (RWA) and the benefit from the sale of the New Zealand life insurance operations. This was partially offset by the impact of the implementation of AASB 9 and AASB 15 on 1 July 2018.

### Capital Initiatives

The following significant capital initiatives were undertaken during the half year ended 31 December 2018:

#### Common Equity Tier 1 Capital

- The Dividend Reinvestment Plan (DRP) in respect of the 2018 final dividend, was satisfied by the allocation of \$749 million of ordinary shares representing a participation rate of 18.4%.

#### Additional Tier 1 Capital

- In December 2018, the Bank issued \$1.59 billion of CommBank PERLS XI Capital Notes (PERLS XI) and concurrently redeemed \$2 billion of Perpetual Exchangeable Resaleable Listed Securities (PERLS VI), both instruments are Basel III compliant Additional Tier 1 securities.

#### Other Regulatory Changes

##### Unquestionably strong capital ratios

In July 2017 APRA released an information paper in relation to establishing the quantum of additional capital required for the Australian banking sector to have capital ratios that are unquestionably strong.

APRA’s expectation in relation to the concept of unquestionably strong is that the Australian major banks will operate with a CET1 average benchmark ratio of 10.5% or more by 1 January 2020.

Following the finalisation of the reforms announced by the BCBS in December 2017, as detailed below, APRA have advised that these reforms have been accommodated within the targets set by APRA in July 2017.

##### Basel Committee on Banking Supervision (BCBS)

In December 2017, the BCBS released “Basel III: Finalising post-crisis reforms”, (commonly referred to as “Basel IV”).

These reforms include:

- Revisions to the Internal Ratings Based (IRB) approach to credit risk including removal of the 1.06 scaling factor, constraints on the use of IRB for certain asset classes (large corporates, banks and financial institutions), and application of minimum input parameters to the remaining IRB credit exposures;
- Improved granularity and risk sensitivity for the standardised approach for credit risk;
- Removal of the operational risk AMA and existing Standardised Measurement Approach (SMA), which will be replaced by a single risk sensitive standardised approach to be used by all banks; and
- Introduction of an aggregate output floor based on the revised Basel III Standardised Approach to calculating RWA. The floor will be phased in over a 5 year period starting at 50% from 1 January 2022, increasing to 72.5% from 1 January 2027.

In January 2019 the BCBS released “Minimum capital requirements for market risk” which finalises changes to the identification and measurement of market risk under both the standardised approach and internal models approach.

All of the above reforms are scheduled to be implemented from 1 January 2022.

(1) In January 2019, APRA announced that the CCyB for Australian exposures will remain at 0%. The Group has limited exposures to those offshore jurisdictions in which a CCyB in excess of 0% has been imposed.

## APRA

In calendar year 2018, APRA issued a number of consultation documents related to proposed revisions to the overall design of the capital framework in order to improve transparency, international comparability and flexibility.

In February 2018 APRA released a paper titled “Discussion paper – Revisions to the capital framework for authorised deposit-taking institutions” in response to the BCBS reforms.

Additional proposals addressed by APRA include:

- Increased capital requirements for investment and interest only home loan exposures, and amendment to the correlation factor to dampen procyclicality of risk weights;
- Higher correlation factors to apply in the Other Retail asset class (including credit cards);
- Large corporate and financial institutions will be subject to the Foundation Internal Ratings based approach;
- Removal of slotting approach and introduction of two asset classes for commercial property;
- Merging of SME retail and SME Corporate asset classes;
- Higher Credit Conversion Factors (CCFs) for off-balance sheet exposures;
- Mandate Loss Given Default (LGD) and Exposure At Default (EAD) estimates for certain non-retail portfolios; and
- Implementation of an output floor (without transitional phasing).

In August 2018, APRA released a paper titled “Discussion paper – Improving the transparency, comparability and flexibility of the ADI capital framework”. APRA proposes two key options for achieving comparability, without changing the quantum or allocation of capital.

The first option advocates the additional disclosure of APRA prescribed internationally comparable capital ratios, alongside the current APRA regulatory capital ratios. The second option will result in only one set of APRA regulatory capital ratios that is more internationally harmonised than the current approach. The latter will be achieved by removing certain aspects of APRA’s relative conservatism from ADI’s capital ratio calculations and at the same time lifting the minimum regulatory capital ratio requirements.

APRA intends to implement these reforms from 1 January 2022.

In November 2018, APRA released a paper titled “Discussion Paper - Increasing the loss-absorbing capacity of ADI’s to support orderly resolution”. APRA is proposing increasing the total capital requirement by between 4% and 5% of RWA for the four Australian major banks. APRA anticipates that the majority of the additional capital will be raised in the form of Tier 2 capital. APRA proposes that these new requirements will be effective from 2023. Consultation on the proposals is currently open with Australian major banks involved in ongoing discussions with APRA.

### Other reforms

- Two new accounting standards, AASB 9 Financial Instruments and AASB 15 Revenue from contracts with customers were implemented on 1 July 2018. AASB 16 Leases will be implemented on 1 July 2019;
- APRA has finalised its prudential requirements for the standardised approach to counterparty credit risk (SA-CCR), and these will take effect from 1 July 2019; and
- The RBNZ is undertaking a comprehensive review of the capital adequacy framework applying to registered banks incorporated in New Zealand. The review focuses on three key components of the current framework, the definition of eligible capital instruments, the calculation of RWAs and minimum capital ratios and buffers. The latest consultation, released in December 2018, includes proposals to increase the Tier 1 capital ratio requirement for domestic systemically important banks to 16% and increase the IRB RWA calculation to approximately 90% of the RWA calculated under the standardised approach. The higher IRB RWA requirements are due to be implemented by June 2020 whilst the increase in Tier 1 capital requirements will be phased over a five year period from 2019. The proposed Tier 1 capital requirement includes a CCyB for New Zealand exposures of 1.5%. Industry submissions are due by 3 May 2019 with the RBNZ expected to finalise its revised capital adequacy framework later this year.

ASB Total Capital ratio	14.8	13.9	14.1

- (1) Comparative information has been restated to conform to presentation in the current period.

## Regulatory Capital Framework Comparison

The APRA Basel III capital requirements are more conservative than those of the BCBS, leading to lower reported capital ratios.

In July 2015, APRA published a study on the calculation of internationally comparable capital by Australian banks entitled "International capital comparison study" (APRA study). As at 31 December 2018, the Group's

internationally comparable CET1, Tier 1 and Total Capital ratios were 16.5%, 19.1% and 22.6% respectively. The basis of this analysis aligns with the APRA study.

The following table provides details on the differences, as at 31 December 2018, between the APRA Basel III capital requirements and the internationally comparable capital ratios.

Item	APRA Study		CET1	Tier 1	Total Capital
	Reference	Description of adjustment	%	%	%
<b>Basel III (APRA)</b>			<b>10.8</b>	<b>12.9</b>	<b>15.8</b>
Equity investments	Appendix 1 Items 1, 2, 4	Balances below prescribed threshold are risk weighted, compared to a 100% CET1 deduction under APRA's requirements.	1.0	0.9	0.8
Capitalised expenses	Appendix 1 Item 5	Balances are risk weighted, compared to a 100% CET1 deduction under APRA's requirements.	0.1	0.1	0.1
Deferred tax assets	Appendix 1 Item 3	Balances below prescribed threshold are risk weighted, compared to a 100% CET1 deduction under APRA's requirements.	0.4	0.4	0.4
IRRBB RWA	3.3.2	APRA requires capital to be held for IRRBB. The BCBS does not have any capital requirement.	0.4	0.5	0.6
Residential mortgages	3.3.1	LGD of 15%, compared to the 20% LGD floor under APRA's requirements and adjustments for higher correlation factor applied by APRA for Australian residential mortgages.	2.1	2.5	3.0
Other retail standardised exposures	3.3.6	Risk weighting of 75%, rather than 100% under APRA's requirements.	0.1	0.1	0.1
Unsecured non-retail exposures	3.3.3	LGD of 45%, compared to the 60% or higher LGD under APRA's requirements.	0.5	0.5	0.6
Non-retail undrawn commitments	3.3.4	Credit conversion factor of 75%, compared to 100% under APRA's requirements.	0.3	0.4	0.5
Specialised lending	3.3.5	Use of AIRB PDs and LGDs for income producing real estate and project finance exposures, reduced by application of a scaling factor of 1.06. APRA applies higher risk weights under a supervisory slotting approach, but does not require the application of the scaling factor.	0.7	0.9	1.0
Currency conversion	3.3.7	Increase in the A\$ equivalent concessional threshold level for small business retail and small/medium enterprise corporate exposures.	0.1	0.1	0.1
<b>Subtotal <sup>(1)</sup></b>			<b>16.5</b>	<b>19.3</b>	<b>23.0</b>
Basel III non-compliant instruments		Removal of Basel III non compliant Tier 1 and Tier 2 instruments that are currently subject to transitional rules.	-	(0.2)	(0.4)
<b>Basel III (Internationally Comparable - aligns with APRA study)</b>			<b>16.5</b>	<b>19.1</b>	<b>22.6</b>

(1) Represents ratios prior to adjustments made for non-compliant Basel III Tier 1 and Tier 2 Capital Instruments. This value is used in determining the Leverage Ratio (Internationally Comparable) as determined on page 8.

The above calculations do not include the impact of a Basel I capital floor, which was introduced as a transitional measure as part of the implementation of Basel II. The Australian banks have now fully implemented the existing Basel III requirements and, therefore, it is difficult to

calculate the impact of such a floor. APRA concluded in the APRA study that it is difficult to make adjustments for the floor in internationally comparable calculations at this time but the inclusion of a floor could reduce internationally comparable ratios by a material amount.

# Leverage Ratio

## 4 Leverage Ratio

The Group's leverage ratio, defined as Tier 1 Capital as a percentage of total exposures, was 5.6% at 31 December 2018 on an APRA basis and 6.4% on an internationally comparable basis.

In December 2017, as part of the final calibration of the leverage ratio, the BCBS announced:

- Confirmation that the leverage ratio will have a minimum regulatory requirement of 3%, effective from 1 January 2018; and
- Changes in the definition of exposures related to derivatives and off balance sheet items, effective from 1 January 2022.

In November 2018, APRA released draft prudential reporting standards that are broadly in line with BCBS guidance including a minimum leverage ratio requirement of 3.5% for IRB banks. These changes are subject to consultation and are proposed to apply from 1 January 2022.

<b>Summary Group Leverage Ratio</b> <sup>(1)</sup>	<b>31 Dec 18</b>	<b>30 Sep 18</b> <sup>(2)</sup>	<b>30 Jun 18</b> <sup>(2)</sup>	<b>31 Mar 18</b> <sup>(2)</sup>	<b>31 Dec 17</b> <sup>(2)</sup>
Tier 1 Capital (\$M)	57,518	56,055	56,365	53,674	54,363
Total Exposures (\$M) <sup>(3)</sup>	1,026,240	1,024,774	1,018,555	1,032,049	1,012,401
<b>Leverage Ratio (APRA) (%)</b>	<b>5.6</b>	5.5	5.5	5.2	5.4
<b>Leverage Ratio (Internationally Comparable) (%)</b> <sup>(4)</sup>	<b>6.4</b>	6.2	6.3	5.9	6.1

(1) Refer to Appendix 11.2 for further details on the composition of the leverage ratio.

(2) Comparative information has been restated to conform to presentation in the current period.

(3) Total exposures is the sum of on Balance Sheet exposures, derivatives, Securities Financing Transactions (SFTs), and off Balance Sheet exposures, net of any Tier 1 regulatory deductions, as outlined in APS 110 "Capital Adequacy".

(4) The Tier 1 Capital included in the calculation of the internationally comparable leverage ratio aligns with the 13 July 2015 APRA study titled "International capital comparison study", and includes Basel III non-compliant Tier 1 instruments that are currently subject to transitional rules.

## 5 Risk Weighted Assets

Risk weighted assets are calculated using the AIRB approach for the majority of the Group's credit risk exposures.

Internal assessment and supervisory formula approaches are used where relevant for non-rated securitisation exposures and for rated exposures where APS 120 prohibits the Group

using the ratings-based approach. The ratings-based approach is used for securitisation exposures rated by External Credit Assessment Institutions (ECAI) where APS 120 allows or requires.

### APS 330 Table 6b to 6f – Basel III Capital Requirements (RWA)

Asset Category	Risk Weighted Assets			Change in RWA for December 2018 half	
	31 Dec 18	30 Jun 18	31 Dec 17	\$M	%

Credit valuation adjustment	2,729	2,882	4,498	(153)	(5.3)
Central counterparties	991	1,018	824	(27)	(2.7)
<b>Total RWA for credit risk exposures</b>	<b>369,356</b>	<b>369,528</b>	<b>366,985</b>	<b>(172)</b>	<b>(0.0)</b>
Traded market risk	5,263	8,255	4,829	(2,992)	(36.2)
Interest rate risk in the banking book	13,872	24,381	27,944	(10,509)	(43.1)
Operational risk	56,653	56,448	41,078	205	0.4
<b>Total risk weighted assets</b>	<b>445,144</b>	<b>458,612</b>	<b>440,836</b>	<b>(13,468)</b>	<b>(2.9)</b>

(1) Pursuant to APRA requirements, RWA amounts derived from AIRB risk weight functions have been multiplied by a scaling factor of 1.06.

(2) APRA granted approval for the Group to extend its AIRB accreditation to include Bankwest SME Retail portfolios. This is reflected in 31 December 2018 RWAs.

# Risk Weighted Assets

## Risk Weighted Assets

Total RWA decreased by \$13.5 billion or 3% to \$445.1 billion on the prior half, driven by lower IRRBB, Traded Market Risk and Credit Risk RWA, partly offset by higher Operational Risk RWA.

### Credit Risk RWA

Credit Risk RWA decreased by \$0.2 billion on the prior half, driven by:

- Decreased volumes due to a reduction in exposures across non retail and some consumer portfolios partly offset by growth in residential mortgages (\$2.4 billion); and
- Improvement in credit quality across most portfolios (\$1.8 billion); partly offset by
- Foreign currency movements (\$2.8 billion);
- Implementation of the new IRB models across Australian residential mortgages partly offset by AIRB accreditation of the Bankwest SME retail portfolio and other regulatory changes (\$0.9 billion); and
- Data and methodology changes (\$0.3 billion).

### Explanation of change in Credit Risk RWA

The composition of the movement in Credit Risk RWA over the prior half is shown below.

Asset Category	Credit Risk RWA movement drivers					
	Change in RWA for Dec 18 half	Volume changes	FX changes	Credit risk estimates changes and regulatory treatments	Data and methodology changes	Change in credit quality
	\$M	\$M	\$M	\$M	\$M	\$M
AIRB corporate including SME and specialised lending	(3,007)	(2,842)	1,995	(437)	(99)	(1,624)
AIRB bank	(1,356)	(1,379)	98	224	(181)	(118)
AIRB sovereign	(179)	(247)	56	(32)	52	(8)

<b>Total credit exposures <sup>(3)</sup></b>	<b>838,085</b>	<b>164,308</b>	<b>26,734</b>	<b>1,029,127</b>	<b>1,025,757</b>	<b>6,741</b>	<b>0.7</b>	

(1) The simple average of balances as at 31 December 2018 and 30 June 2018.

(2) The difference between exposures as at 31 December 2018 and 30 June 2018.

(3) Total credit risk exposures (calculated as EAD) do not include equities or securitisation exposures.

### Explanation of change in credit risk exposure

Details of credit risk exposure movements over the prior half are as follows:

Asset Category	Total exposure change \$M	Regulatory Exposure Driver
AIRB corporate (including SME) and specialised lending	(2,398)	Reflects reduction in exposure across corporate portfolios partly offset by AIRB accreditation of Bankwest SME retail portfolio and FX movements.
AIRB sovereign	4,752	Reflects increase in liquid assets and FX movements partly offset by some changes in the treatment of derivatives.
AIRB bank	(6,649)	Reflects a reduction in liquid assets and some changes in the treatment of derivatives partly offset by FX movements.
AIRB consumer retail	7,418	Volume growth in Australian residential mortgages and FX movements partly offset by reductions in credit card and personal loan volumes.
<b>Total advanced and specialised lending</b>	<b>3,123</b>	
Standardised including other assets and central counterparties	3,618	Primarily reflects increased holdings in cash, gold bullion and settlement accounts, partly offset by the AIRB accreditation of Bankwest SME retail portfolio and reductions in offshore exposures.
<b>Total excluding securitisation and equity exposures</b>	<b>6,741</b>	

## Credit Risk

(1) Including SME retail secured by residential property.

(2) Total credit risk exposures do not include equities or securitisation exposures.

# Credit Risk

## 6.2 Past Due and Impaired Exposures, Provisions and Reserves

All provisions for impairment assessed on an individual basis in accordance with the Australian Accounting Standards are classified as specific provisions in accordance with APS 220 "Credit Quality". Most of the collective provisions raised under the Australian Accounting Standards are included in the General Reserve for Credit Losses (GRCL), however, certain collective provisions not eligible for inclusion in the GRCL, are classified as specific provisions. This includes, for example, collective provisions on retail products that are in default. On 1 July 2018, the Group adopted AASB 9 resulting in a \$1.06 billion increase to collective provisions. The increase is due to the introduction of forward looking economic factors and holding lifetime expected credit losses on stage 2 loans as prescribed under the standard.

### Reconciliation of Australian Accounting Standards, APS 220 based credit provisions and APS 330 Table 7j – General reserve for credit losses

	31 December 2018		
	General	Specific	Total
	reserve for	provision	provisions
	credit losses <sup>(1)</sup>	<sup>(1)</sup>

<b>Total</b>	<b>3,367</b>	<b>2,660</b>	<b>1,225</b>	<b>211</b>	<b>564</b>

(1) Specific provision balance includes certain Australian Accounting Standards collective provisions on some defaulted loans.

(2) Actual losses equal write-offs from individual provisions, write-offs direct from collective provisions less recoveries of amounts previously written off, for the half year ended 31 December 2017.

### Factors impacting the loss experience

The overall quality of the portfolio was stable during the half year ended 31 December 2018. Gross impaired assets as a proportion of gross loans and acceptances (GLAA) increased by 5 basis points to 0.47%. Total provisions as a proportion of GLAA increased 13 basis points to 0.62%, mainly driven by the adoption of AASB 9 on 1 July 2018. Group actual losses reduced by \$77 million on the prior half led by an overall reduction in both consumer and commercial portfolio losses.

<b>Total</b>	<b>3,367</b>	<b>2,660</b>	<b>1,225</b>	<b>211</b>	<b>564</b>

(1) Specific provision balance includes certain Australian Accounting Standards collective provisions on some defaulted loans.

(2) Actual losses equal write-offs from individual provisions, write-offs direct from collective provisions less recoveries of amounts previously written off, for the half year ended 31 December 2017.

## Credit Risk

**APS 330 Table 7g (i) – Impaired, past due and specific provisions by geographic region**

Geographic Region <sup>(1)</sup>	31 December 2018		
	Impaired assets	Past due loans ≥ 90 days	Specific provision balance
	\$M	\$M	\$M
Australia	2,688	3,088	1,107
New Zealand	463	86	77
Other	409	41	97
<b>Total</b>	<b>3,560</b>	<b>3,215</b>	<b>1,281</b>

	Impaired assets	Past due loans ≥ 90 days	Specific provision balance
	\$M	\$M	\$M
Australia	2,229	3,085	947
New Zealand	487	100	61
Other	463	31	141
<b>Total</b>	<b>3,179</b>	<b>3,216</b>	<b>1,149</b>

Geographic Region <sup>(1)</sup>	31 December 2017		
	Impaired assets	Past due loans ≥ 90 days	Specific provision balance
	\$M	\$M	\$M
Australia	2,175	2,535	903
New Zealand	540	83	66
Other	652	42	256
<b>Total</b>	<b>3,367</b>	<b>2,660</b>	<b>1,225</b>

(1) Balances are reported based on the risk domicile of the borrower. The Group's financial statements disclose balances based on the domicile of the lending entity.

The Group's GRCL (before tax) by geographic region is distributed as follows:

**APS 330 Table 7g (ii) – GRCL by geographic region**

Geographic Region	31 Dec 18	30 Jun 18	31 Dec 17
	\$M	\$M	\$M
Australia	3,428	2,689	2,709
New Zealand	300	225	215
Other	264	159	155
<b>Total GRCL</b>	<b>3,992</b>	<b>3,073</b>	<b>3,079</b>

## APS 330 Table 7h (i) – Movement in collective provisions and general reserve for credit losses

	Half Year Ended		
	31 Dec 18	30 Jun 18	31 Dec 17
	\$M	\$M	\$M
<b>Movement in Collective Provisions</b>			
Opening balance	2,763	2,772	2,747
Change on adoption of AASB 9 <sup>(1)</sup>	1,055	-	-
Net charge against profit and loss	312	331	385
Recoveries	104	97	104
Other	18	1	(31)
Write-offs	(438)	(438)	(433)
<b>Total collective provisions</b>	<b>3,814</b>	<b>2,763</b>	<b>2,772</b>
Less collective provisions transferred to specific provisions	(361)	(279)	(247)
Additional GRCL requirement <sup>(2)</sup>	539	589	554
<b>General reserve for credit losses</b>	<b>3,992</b>	<b>3,073</b>	<b>3,079</b>

(1) On 1 July 2018, the Group adopted AASB 9 resulting in a \$1.06 billion increase to collective provisions. The increase is due to the introduction of forward looking economic factors and holding lifetime expected credit losses on stage 2 loans as prescribed under the standard.

(2) The Group has recognised these amounts as a deduction from CET1 in order to maintain the required minimum GRCL.

## APS 330 Table 7h (ii) – Movement in individual provisions and specific provisions

	Half Year Ended		
	31 Dec 18	30 Jun 18	31 Dec 17

Net write back of provisions no longer required	(83)	(103)	(159)
Discount unwind to interest income	(10)	(11)	(14)
Other	39	64	36
Write-offs	(244)	(313)	(235)
<b>Total individual provisions</b>	<b>920</b>	<b>870</b>	<b>978</b>
Add collective provisions transferred to specific provisions	361	279	247
<b>Specific provisions</b>	<b>1,281</b>	<b>1,149</b>	<b>1,225</b>

### 6.3 Portfolios Subject to Standardised and Supervisory Risk-Weights

Portfolios that use the Standardised approach include:

Commonwealth Bank of Australia:

- Some retail SMEs (overdrawn accounts);
- Non-rated Corporate exposures;
- Some residential mortgages (including purchased portfolios and reverse mortgages);
- Margin lending;
- Non-recourse purchased receivables;
- Some branches; and
- Central counterparties.

Bankwest portfolio:

- Some residential mortgages (equity lines of credit); and
- Some unsecured consumer retail (personal cheque accounts).

ASB Bank Limited:

- Personal loans and Retail SME.

All exposures in the following entities:

- CommBank Europe Ltd; and
- PT Bank Commonwealth (Indonesia).

## APS 330 Table 8b – Exposures subject to standardised and supervisory risk weights

	31 December 2017		
	Exposure	Risk weight	RWA
	\$M	%	\$M
<b>Other Assets</b> <sup>(1)</sup>			
Cash	4,025	-	-
Cash items in course of collection	114	20	23
Margin lending <sup>(2)</sup>	2,782	32	904
Fixed and forward purchase assets	1,525	100	1,525
Other	2,834	≥100	2,871
<b>Total</b>	<b>11,280</b>	<b>47</b>	<b>5,323</b>

(1) Other Assets are included in Standardised Approach Exposures table above.

(2) Margin lending against listed instruments are risk weighted at 20%. Other unlisted instruments are risk weighted at 100%.

Specialised Lending Exposures Subject to Supervisory Slotting <sup>(1)</sup>	31 Dec 18	30 Jun 18	31 Dec 17
	\$M	\$M	\$M
<b>Risk Weight</b>			
0%	342	196	372
70%	17,042	17,722	17,389
90%	37,944	39,356	41,049
115%	4,932	4,315	4,762
250%	681	1,242	636
<b>Total exposures</b>	<b>60,941</b>	<b>62,831</b>	<b>64,208</b>

(1) APRA requires certain specialised lending exposures including Income Producing Real Estate, Object and Project Finance to be assigned specific risk weights according to "slotting" criteria defined by the Regulator.

## 6.4 Portfolios Subject to Internal Ratings Based Approaches

The Group's mapping of internal rating scales for risk-rated exposures to external rating agencies is detailed in APS 330 Table 9b.

### APS 330 Table 9b – Internal ratings structure for credit risk exposures and mapping to external ratings <sup>(1)</sup>

Description	Internal Rating	Probability of Default	S&P Rating	Moody's Rating
Exceptional	A0 to A3	0% - 0.040%	AAA to AA-	Aaa to Aa3
Strong	B1 to C3	>0.040% - 0.447%	A+ to BBB-	A1 to Baa3
Pass	D1 to E3	>0.447% - 6.656%	BB+ to B-	Ba1 to B3
Weak/doubtful	F1 to G3	>6.656%	CCC to C	Caa to Ca
Restructured	R	30.998%	-	-
Defaulted	H	100%	D	C

(1) The probability of default ranges in Table 9b have been updated to reflect the change to the Group's PD Masterscale in November 2018.

### APS 330 Table 9c – PD rating methodology by portfolio segment

Portfolio Segment	PD Rating Methodology
Bank and sovereign exposures	Expert judgement assigned risk rating, informed but not driven by rating agency views.
Large corporate exposures	Combination of Expert Judgement and PD Rating Tool assigned risk ratings depending on the industry sector.
SME Corporate exposures	PD Rating Tools and Expert Judgement assigned risk rating.
SME Retail exposures	SME Behaviour Score assigned PD pools.
Consumer retail exposures (including residential mortgages, qualifying revolving credit and other retail)	Depending on the product, PD pools are assigned using product specific Application Scorecards, Behavioural Scorecards, payment status or a combination of these.

<b>Total advanced IRB and specialised lending portfolios</b>	<b>494</b>	<b>4,592</b>

Actual losses may differ from modelled regulatory EL for a number of reasons.

Actual losses (whether from standardised or AIRB portfolios) are historical and are based on the quality of impaired assets in prior periods, full or partial write-offs, and more recent economic conditions. Actual losses are expected to be below the regulatory EL estimate in most years.

Regulatory EL measures economic loss at a point in time and includes costs (such as internal costs) not included in actual losses. Regulatory EL is calculated on non-defaulted and defaulted AIRB exposures using long-run PDs and downturn LGDs for non-defaulted exposures, and the Best Estimate of Expected Loss (BEEL) for defaulted exposures.

# Credit Risk

## Accuracy of Risk Estimates

The following tables compare IRB credit risk estimates used in calculating regulatory capital, to realised outcomes.

### Probability of Default

APS 330 Table 9f (ii) compares estimates of long-run PD to actual default rates averaged over 10.5 financial years to 31 December 2018, where results for the half year to December 2018 have been annualised without adjustment for seasonality. Average estimated PD is based on the average of long-run PD's for obligors that are not in default at the beginning of each financial year in the observation period. Actual PD is based on the number of defaulted obligors during the year compared to the non-defaulted obligors measured at the beginning of each financial year.

### APS 330 Table 9f (ii) – Accuracy of risk estimates – PD

Portfolio Type	As at 31 December 2018	
	Average estimated PD	Average actual PD
	%	%
Corporate	1.27	0.81
SME corporate	2.24	1.94
SME retail (including SME retail secured by residential mortgages)	1.80	0.83
Specialised lending <sup>(1)</sup>	n/a	1.54
Sovereign <sup>(2)</sup>	0.59	0.02
Bank <sup>(2)</sup>	0.29	0.23
Residential mortgage (excluding SME retail secured by residential mortgages)	0.86	0.75
Qualifying revolving retail	1.93	2.00
Other retail	4.96	4.76

(1) Average estimated PD not relevant for specialised lending under the Supervisory Slotting approach.

(2) Actual PDs based on a low volume of defaults observed.

### Loss Given Default and Exposure at Default

LGDs for non-retail portfolios are based on accounts that defaulted in 2009 to 2016 financial years. LGDs for retail portfolios are based on accounts that defaulted in 2009 to 2017 financial years. Defaults occurring in the most recent years have been excluded from the analysis, to allow sufficient time for workout of impaired assets, booking of losses and more meaningful disclosures.

The EAD ratio compares estimates of EAD prior to default to realised EAD for obligors that defaulted.

### APS 330 Table 9f (iii) – Accuracy of risk estimates – LGD and EAD

Portfolio Type	As at 31 December 2018		
	Average estimated downturn LGD	Average actual LGD	Ratio of estimated EAD to actual EAD
	%	%	
Corporate	51.3	39.6	1.1
SME corporate	33.2	19.7	1.1
SME retail (including SME retail secured by residential mortgages)	32.0	20.0	1.2
Specialised lending <sup>(1)</sup>	n/a	32.0	1.1
Sovereign	61.3	1.3	1.8
Bank <sup>(2)</sup>	65.4	109.9	1.8
Residential mortgage (excluding SME retail secured by residential mortgages) <sup>(3)</sup>	20.7	6.2	1.0
Qualifying revolving retail	87.5	69.8	1.1
Other retail	97.2	76.8	1.0

(1) Average estimated LGD is not relevant for specialised lending under Supervisory Slotting approach.

(2) Actual LGDs based on a low volume of defaults observed.

(3) Estimated downturn LGD based on minimum regulatory floor requirements imposed by APRA and RBNZ.

## 6.5 Credit Risk Mitigation

<b>Total</b>	<b>4,732</b>	<b>11,219</b>	<b>59,824</b>	<b>-</b>

(1) Group originated assets (capital relief) comprise CBA Medallion and Bankwest Swan Trusts subject to capital treatment under APS 120.

(2) Group originated assets (non-capital relief) comprise CBA Medallion and Bankwest Swan Trusts subject to capital treatment under APS 113.

(3) Group originated assets (internal RMBS) comprise CBA Medallion, Bankwest Swan and ASB Medallion Trusts held for contingent liquidity purposes.

(4) Third party originated assets comprise assets managed and sponsored by the Group.

### APS 330 Table 12g (ii) – Banking book exposures securitised – synthetic securitisation

APS 120 provides specific regulatory treatment for synthetic securitisations where credit risk is transferred to a third party, however legal ownership of the underlying assets remains with the originator.

The Group has not undertaken any synthetic securitisation in the banking book.

### APS 330 Table 12g (iii) – Total banking book exposures securitised

APS 330 Table 12g (i) discloses the total banking book exposures securitised by the Group.

## Credit Risk

### APS 330 Table 12I (i) – Banking book exposure by risk weighting

Total securitisation exposures in the banking book increased by \$576 million or 3.8% during the half year ended 31 December 2018. The corresponding RWA increased by \$163 million or 5.7%. This was mainly due to changes in risk profile for securitisation exposures.

<b>Total</b>	<b>3</b>	<b>17</b>	<b>3</b>

**APS 330 Table 12m – Banking book exposures subject to early amortisation**

The Group has not undertaken any securitisation subject to early amortisation treatment.

**APS 330 Table 12n – Banking book resecuritisation exposures**

As at 31 December 2018, banking book resecuritisation exposures without credit risk mitigation is nil (30 June 2018: nil; 31 December 2017: nil).

The Group did not have any resecuritisation exposures subject to credit risk mitigation.

The Group did not have any exposure to third party guarantors providing guarantees for securitised assets.

**APS 330 Table 12o (i) – Trading book exposures securitised – traditional securitisation**

The Group has not undertaken any traditional securitisations of exposures in the trading book.

**APS 330 Table 12o (ii) – Trading book exposures securitised – synthetic securitisation**

The Group has not undertaken any synthetic securitisations of exposures in the trading book.

**APS 330 Table 12o (iii) – Total trading book exposures securitised**

The Group has not securitised any exposures from the trading book.

**APS 330 Table 12p – Trading book exposures intended to be securitised**

The Group does not have any outstanding trading book exposures that are intended to be securitised at 31 December 2018.

**APS 330 Table 12q – Trading book activity for the reporting period**

The Group participated in third-party securitisation in the trading book during the half year ended 31 December 2018, relating to nil residential mortgages (30 June 2018: \$40 million, 31 December 2017: \$4 million), and nil auto and equipment finance (30 June 2018: \$1 million, 31 December 2017: \$1 million), and nil personal finance (30 June 2018: \$1 million, 31 December 2017: nil) exposures.

**APS 330 Table 12r – Trading book exposures subject to APS 116**

The aggregate amount of exposures securitised by the Group and subject to Prudential Standard APS 116 “Capital Adequacy: Market Risk” was \$18 million as at 31 December 2018 (30 June 2018: \$40 million; 31 December 2017: \$13 million). This consists of:

- Securities held in the trading book subject to the Standard Method of nil (30 June 2018: \$22 million; 31 December 2017: nil); and
- Derivatives held in the trading book subject to the Internal Models Approach (IMA) of \$18 million (30 June 2018: \$18 million; 31 December 2017: \$13 million).

## Credit Risk

**APS 330 Table 12u (iii) – Trading book exposures entirely deducted from capital**

The Group has no trading book exposures that are deducted entirely from Common Equity Tier 1 capital as at 31 December 2018 (30 June 2018: nil, 31 December 2017: nil).

The Group does not have any trading book exposures that are credit enhancements deducted from total capital or any other exposures deducted from total capital.

**APS 330 Table 12v – Trading book exposures subject to early amortisation**

The Group has not undertaken any securitisation subject to early amortisation treatment.

**APS 330 Table 12w – Trading book resecuritisation exposures**

The Group did not have any trading book resecuritisation exposures without credit risk mitigation as at 31 December 2018 (30 June 2018: nil; 31 December 2017: nil).

The Group did not have any resecuritisation exposures subject to credit risk mitigation.

The Group did not have any third party guarantors providing guarantees for securitised assets.

**APS 330 Table 5a – Total securitisation activity for the reporting period**

The Group disclosed the summary of the current period's securitisation activity including the total amount of exposures securitised and recognised gain or loss on sale by exposure type in APS 330 Table 12j (banking book) and APS 330 Table 12q (trading book).

The total exposures securitised in the half year to 31 December 2018 was \$2,729 million (30 June 2018: \$6,527 million; 31 December 2017: \$4,864 million).

**APS 330 Table 5b – Summary of total securitisation exposures retained or purchased**

	31 Dec 18	30 Jun 18	31 Dec 17
	\$M	\$M	\$M
<b>Gain/(Losses) on Equity Investments</b>			
Cumulative realised gains in reporting period	13	-	-
Total unrealised gains/(losses)	167	183	192

(1) Equity exposures are not risk weighted at Level 2.

(2) Equity exposures include non-traded equity investments as well as investments in associates and joint ventures and are treated as a capital deduction. For accounting purposes equity investments are measured at fair value and investments in associates and joint ventures are measured using the equity method of accounting. Under the equity method, investments are initially recorded at cost and adjusted for the Group's share of the associates' and joint ventures' post-acquisition profits or losses and other comprehensive income, less any dividends received. The Group assesses, at each balance sheet date, whether there is objective evidence of impairment. If there is an indicator of impairment the balance is tested for impairment by comparing the recoverable amount (higher of value in use and fair value less disposal costs) with the carrying amount.

## 8 Market Risk

### 8.1 Traded Market Risk

#### Capital Calculation Methods

The breakdown of RWA for Traded market risk by modelling method is summarised in the table below.

	31 Dec 18	30 Jun 18	31 Dec 17
	\$M	\$M	\$M
<b>Traded Market Risk RWA by Modelling Approach <sup>(1)</sup></b>			
Internal Model Approach	4,499	7,477	3,951
Standard Method	764	778	878
<b>Total Traded Market Risk RWA</b>	<b>5,263</b>	<b>8,255</b>	<b>4,829</b>

(1) Refer to page 10 for commentary.

The capital requirement for Traded market risk under the Standard Method is disclosed in APS 330 Table 13b.

#### APS 330 Table 13b – Traded Market Risk under the Standard Method

Exposure Type	31 Dec 18	30 Jun 18	31 Dec 17
	\$M	\$M	\$M
Interest rate risk	60.9	61.9	69.9
Equity risk	0.1	0.2	0.2
Foreign exchange risk	0.1	0.1	0.1
Commodity risk	-	-	-
<b>Total</b>	<b>61.1</b>	<b>62.2</b>	<b>70.2</b>
<b>Risk Weighted Asset equivalent <sup>(1)</sup></b>	<b>764</b>	<b>778</b>	<b>878</b>

(1) Risk Weighted Asset equivalent is the capital requirements multiplied by 12.5 in accordance with APRA Prudential Standard APS 110.

#### Traded Market Risk Internal Model

The VaR and Stressed VaR results calculated under the Internal Model Approach are summarised in APS 330 Table 14f (i).

#### APS 330 Table 14f (i) – Value-at-Risk and Stressed Value-at-Risk for trading portfolios under the Internal Model Approach

	Aggregate Value-at-Risk Over the Reporting Period			As at
	Mean value	Maximum value	Minimum value	balance date
	\$M	\$M	\$M	\$M
<b>Average VaR <sup>(1)</sup></b>				
Over the 6 months to 31 December 2018	48	75	27	41
Over the 6 months to 30 June 2018	59	103	26	67
Over the 6 months to 31 December 2017	28	37	19	30

	Aggregate SVaR Over the Reporting Period			As at
	Mean value	Maximum value	Minimum value	balance date
	\$M	\$M	\$M	\$M
<b>Stressed VaR <sup>(1)</sup></b>				
Over the 6 months to 31 December 2018	89	162	51	85
Over the 6 months to 30 June 2018	117	178	65	123
Over the 6 months to 31 December 2017	79	104	56	67

(1) 10 day, 99% confidence interval over the reporting period.

#### Internal Model Approach – Back-test results

The Internal Model is subject to back-testing against hypothetical profit and loss. In the 6 months to 31 December 2018 there were no back-test outliers. The back-test results are summarised in APS 330 Table 14f (ii) and details of these are provided in APS 330 Table 14f (iii). A comparison of VaR with actual gains or losses during the 6 months to 31 December 2018 is illustrated in APS 330 Table 14f (iv).

#### APS 330 Table 14f(ii) - Summary Table of the Number of Back-Testing Outliers <sup>(1)</sup>

Over the 6 months to 31 December 2018	-
Over the 6 months to 30 June 2018	-
Over the 6 months to 31 December 2017	-

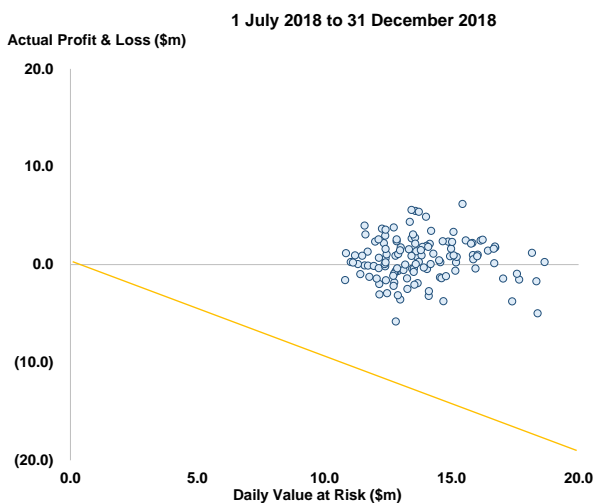

(1) 1 day, 99% confidence interval over the reporting period.

# Market Risk and Operational Risk

200 basis point parallel decrease	67	87	71
<b>Other</b>			
200 basis point parallel increase	(5)	19	16
200 basis point parallel decrease	3	(19)	(19)
<b>Regulatory RWA</b> <sup>(1) (2)</sup>			
Interest rate risk in the banking book	13,872	24,381	27,944

(1) The methodology for determining the Regulatory RWA for IRRBB is outlined in the 30 June 2018 Basel III Pillar 3 report of the Group and is in accordance with APRA's Prudential Standard APS 110 "Capital Adequacy".

(2) Refer to page 10 for commentary.

## 9 Operational Risk

**APS 330 Table 6e – Capital requirements for operational risk**

	31 Dec 18	30 Jun 18	31 Dec 17
	\$M	\$M	\$M
<b>Total operational risk RWA</b> <sup>(1)</sup>	56,653	56,448	41,078

(1) Refer to page 10 for commentary.

For further detail on the operational risk policies, frameworks and capital calculations, refer to pages 73-74 of the June 2018 Pillar 3 report.

## 10 Liquidity Risk

### 10.1 Liquidity Coverage Ratio Disclosure

The Group calculates its LCR position daily, ensuring a buffer is maintained over the minimum regulatory requirement of 100% and the Board's risk appetite. Over the December quarter, excess liquid assets averaged \$33 billion while the LCR was stable at 131%, with the small reduction in liquid assets matching the reduction in modelled Net Cash Outflows (NCOs). NCOs represent Net Cash Outflows modelled under an APRA-prescribed 30 day severe liquidity stress scenario.

The Group's mix of liquid assets consists of High Quality Liquid Assets (HQLA), being cash, deposits with central banks and securities issued by governments and highly rated public sector entities. Liquid assets also include securities repo-eligible with the Reserve Bank of Australia under the Committed Liquidity Facility (CLF) and securities classified as liquid assets by the Reserve Bank of New Zealand (RBNZ). Liquid assets are distributed across the Group to support regulatory and internal requirements and are consistent with the distribution of liquidity needs by currency.

The Group manages modelled NCOs by maintaining a large base of low LCR outflow customer deposits and actively managing its wholesale funding maturity profile as part of its overall liquidity management strategy. The Group's small reduction in 30 day modelled NCOs over the December quarter was driven by lower outflows from unsecured wholesale funding maturities.

### APS 330 Table 20 - LCR disclosure template

(1) The averages presented are calculated as simple averages of daily observations over the previous quarter.

# Liquidity Risk

## 10.2 Net Stable Funding Ratio Disclosure

The Net Stable Funding Ratio (NSFR) is an APRA measure implemented on 1 January 2018 that requires Australian ADIs to have sufficient Available Stable Funding (ASF) to meet their Required Stable Funding (RSF) over a one year horizon. The Group calculates its NSFR position daily, ensuring a buffer is maintained over the regulatory requirement of 100% and the Board's risk appetite.

The ASF and RSF are calculated by applying APRA-prescribed factors to liabilities, assets and off-balance sheet commitments. The Group's main sources of ASF are deposits from retail and SME customers, wholesale funding and capital. The main contributors to RSF are residential mortgages and other loans to non-FI customers.

The small decrease in the NSFR from 113% to 112% from 30 September 2018 to 31 December 2018 was driven by a small change in the mix of wholesale funding.

### APS 330 Table 21 – NSFR disclosure template

CET1 (Internationally Comparable)	57,322	

(1) Represents general reserve for credit losses of \$378m (post tax), with associated tax amount incorporated in the row 26e adjustment. As at 31 December 2018 there is no shortfall with eligible credit provisions in excess of regulatory expected loss (pre-tax) using stressed loss given default assumptions associated with the loan portfolio included in row 50.

(2) In accordance with APRA regulations, the surplus in the Group's defined benefit superannuation fund, net of any deferred tax liability, must be deducted from Common Equity Tier 1.

<b>Total Shareholders' Equity</b>	<b>68,578</b>	<b>(318)</b>	<b>68,260</b>		

(1) Reflects the deconsolidation of the Insurance and funds management entities and those entities through which securitisation of the Group's assets are conducted. These entities are classified as non-consolidated subsidiaries by APRA and are excluded from the Level 2 Regulatory Consolidated Banking Group.

(2) Level 2 Intangible assets also includes Intangible assets from discontinued operations included under Assets held for sale on the Group Balance sheet.

## 11.4 Reconciliation between Detailed Capital Template and Regulatory Balance Sheet

The following tables provide additional information on the differences between the detailed capital disclosures (section 11.1) and the Regulatory Balance Sheet (section 11.3).

<b>Table A</b>	<b>31 Dec 18</b>	<b>Template</b>
	<b>\$M</b>	<b>Reference</b>
<b>Share Capital</b>		
Ordinary Share Capital	38,015	
Add Treasury Shares held by the Group's life insurance operations	87	
Total per Balance Sheet (Ordinary Share Capital Internationally Comparable) <sup>(1)</sup>	38,102	Row 1
Treasury Shares held by the Group's employee share scheme trusts (APRA specific adjustment)	181	Row 26a
<b>Total Ordinary Share Capital and Treasury Shares (APRA)</b>	<b>38,283</b>	

<b>Table B</b>	<b>31 Dec 18</b>	<b>Template</b>
	<b>\$M</b>	<b>Reference</b>
<b>Non Controlling Interests</b>		
Total per Balance Sheet <sup>(1)</sup>	509	
Less ASB perpetual Shares transferred to Additional Tier 1 Capital (refer Table E)	(505)	
Less other non controlling interests not included in capital	(4)	
<b>Total per Capital Template (APRA and Internationally Comparable)</b>	<b>-</b>	Row 5

<b>Table C</b>	<b>31 Dec 18</b>	<b>Template</b>
	<b>\$M</b>	<b>Reference</b>
<b>Goodwill &amp; Other Intangibles</b>		
Total per Balance Sheet <sup>(1)</sup>	9,681	
Less capitalised software and other intangibles separately disclosed in template	(2,177)	
<b>Total per Capital Template - Goodwill (APRA and Internationally Comparable)</b>	<b>7,504</b>	Row 8
Other intangibles (including capitalised software) per Balance Sheet	2,177	
Less DTL associated with other intangibles	(69)	
<b>Total per Capital Template - Other Intangibles (APRA and Internationally Comparable)</b>	<b>2,108</b>	Row 9

<b>Table D</b>	<b>31 Dec 18</b>	<b>Template</b>
	<b>\$M</b>	<b>Reference</b>
<b>Deferred Tax Assets</b>		
Deferred tax asset per Balance Sheet <sup>(1)</sup>	1,730	
Less deferred tax liability per Balance Sheet <sup>(1)</sup>	-	
<b>Net Deferred Tax Assets <sup>(2)</sup></b>	<b>1,730</b>	
Adjustments required in accordance with APRA prudential standards <sup>(3)</sup>	556	
Deferred tax asset adjustment before applying prescribed thresholds (APRA specific adjustment)	2,286	Row 26e
Less amounts below prescribed threshold - risk weighted <sup>(4)</sup>	(2,286)	Row 75
<b>Total per Capital Template (Internationally Comparable)</b>	<b>-</b>	Row 10, 21, 25

(1) Represents the balance per Level 2 Regulatory Balance Sheet.

(2) Represents the balance of deferred tax asset net of deferred tax liability per Level 2 Regulatory Balance Sheet.

(3) Represents the deferred tax balances associated with reserves ineligible for inclusion in regulatory capital, the general reserve for credit losses, intangibles and the impact of limitations of netting of balances within the same geographic tax authority.

(4) The BCBS allows these items to be risk weighted at 250% if the balance falls below prescribed threshold levels. APRA require these to be deducted from CET1 Capital.

# Appendices

## 11.4 Reconciliation between Detailed Capital Template and Regulatory Balance Sheet (continued)

<b>Table E</b>	<b>31 Dec 18</b>	<b>Template</b>
	<b>\$M</b>	<b>Reference</b>
<b>Additional Tier 1 Capital</b>		
Total Loan Capital per Balance Sheet <sup>(1)</sup>	22,831	
Less fair value hedge adjustments <sup>(2)</sup>	(80)	
Total Loan Capital net of issue costs at their contractual values	22,751	
Less amount related to Tier 2 Capital Instruments	(13,624)	
Total Tier 1 Loan Capital	9,127	
Add ASB perpetual Shares transferred from Non Controlling interest (refer Table B)	505	
Add issue costs <sup>(3)</sup>	60	
Less Basel III transitional relief amortisation for directly issued instruments <sup>(4)</sup>	-	Row 83
Less Basel III transitional relief amortisation for instruments issued by subsidiaries <sup>(4)</sup>	-	Row 83
<b>Total per Capital Template (APRA)</b>	<b>9,692</b>	<b>Row 36</b>
<b>Additional Tier 1 Capital Instruments comprises</b>		
<b>Basel III Complying Instruments</b>		
PERLS VII	3,000	
PERLS VIII	1,450	
PERLS IX	1,640	
PERLS X	1,365	
PERLS XI	1,590	
	9,045	Row 32
<b>Basel III Non Complying Instruments</b>		
Other Instruments	142	
Less Basel III transitional relief amortisation for directly issued instruments <sup>(4)</sup>	-	Row 83
	142	Row 33
<b>Basel III Non Complying Instruments - issued by subsidiaries</b>		
ASB preference shares	505	
Less Basel III transitional relief amortisation for instruments issued by subsidiaries <sup>(4)</sup>	-	Row 33
	505	Row 35
<b>Total Basel III Non Complying Instruments</b>	<b>647</b>	
<b>Total Additional Tier 1 Capital Instruments (APRA)</b>	<b>9,692</b>	<b>Row 36</b>

<b>Table F</b>	<b>31 Dec 18</b>	<b>Template</b>
	<b>\$M</b>	<b>Reference</b>
<b>Tier 2 Capital Instruments</b>		
Total included in Balance Sheet	13,624	
Less amount of Tier 2 debt issued by subsidiary ineligible for inclusion in the Group's Capital <sup>(5)</sup>	(173)	
Add issue costs <sup>(3)</sup>	37	
Less amortisation of instruments <sup>(6)</sup>	(1,297)	
Less Basel III transitional relief amortisation for directly issued instruments <sup>(4)</sup>	-	Row 85
<b>Total per Capital Template (APRA and Internationally Comparable)</b>	<b>12,191</b>	<b>Row 46, 47</b>

(1) Represents the balance per Level 2 Regulatory Balance Sheet.

(2) For regulatory capital purposes, APRA requires these instruments to be included as if they were unhedged.

(3) Unamortised issue costs relating to capital instruments are netted off against each instrument in the Balance Sheet. For regulatory capital purposes, these capital instruments are shown at face value. The unamortised issue costs are deducted from CET1 as part of capitalised expenses in Row 26f in the Capital template.

(4) Basel III transitional arrangements apply to directly issued capital instruments and instruments issued by subsidiaries not compliant with the new Basel III requirements.

(5) Represents notes issued by the Group through ASB, its New Zealand subsidiary. The amount of these notes that contributes to ASB capital in excess of its minimum regulatory requirements is not eligible for inclusion in the Group's capital.

(6) APRA requires these instruments to be amortised by 20% of the original amount during each of the last five years to maturity. This is in addition to Basel III transitional arrangements.

Details on the main features of Capital instruments included in the Group's Regulatory Capital, (Ordinary Share Capital, Additional Tier 1 Capital and Tier 2 Capital) as required by APS 330 Attachment B can be found at [www.commbank.com.au/investors](http://www.commbank.com.au/investors)

## 11.4 Reconciliation between Detailed Capital Template and Regulatory Balance Sheet (continued)

<b>Table G</b>	<b>31 Dec 18</b>	<b>Template</b>
	<b>\$M</b>	<b>Reference</b>
<b>Equity Investments</b>		
Investment in commercial entities	99	Row 26g
Investments in significant financial entities	2,792	Row 26d, 73
Investments in non-significant financial entities	222	Row 26d, 72
	<b>3,113</b>	
Equity investment in non-consolidated subsidiaries	2,887	Row 26d, 73
Total Equity Investments before applying prescribed thresholds APRA specific adjustment <sup>(1)</sup>	6,000	
Less amounts risk weighted under Internationally Comparable <sup>(2)</sup>	(6,000)	
<b>Total per Capital Template (Internationally Comparable)</b>	<b>-</b>	Row 18, 19, 23

- (1) Equity Investments are classified in the Level 2 Regulatory Balance Sheet across Investments in Associates, Assets held for Sale, Available-for-Sale Securities and Investment in non-consolidated subsidiaries. In addition, the Group has undrawn commitments (Off-Balance Sheet) which are deemed in the nature of equity for Regulatory Capital purposes.
- (2) The aggregate of investments in significant financial entities of \$2,792 million, investments in non-significant financial entities of \$222 million and equity investment in non-consolidated subsidiaries of \$2,887 million is a total of \$5,901 million and is included in row 26d in the Capital template. The BCBS allows for equity investments to be concessionally risk weighted provided they are below prescribed thresholds. APRA requires such items to be deducted 100% from CET1 capital. The remaining balance of \$99 million related to Investments in commercial entities are risk weighted under Internationally Comparable methodology, with no prescribed threshold limits.

### Countercyclical Capital Buffer

The countercyclical capital buffer (CCyB), represents an extension to the capital conservation buffer and may require an ADI to hold additional CET1 of up to 2.5%. The CCyB is calculated as the sum of the specific buffer set by APRA with respect to Australian private sector exposures and the weighted average for offshore private sector exposures where the CCyB has been enacted.

<b>Table H</b>				
<b>Country <sup>(1)</sup></b>	<b>RWA <sup>(2)</sup></b>	<b>Jurisdictional Buffer</b>	<b>ADI Specific Buffer <sup>(3)</sup></b>	<b>Template Reference</b>
	<b>\$M</b>	<b>%</b>	<b>%</b>	
United Kingdom	6,208	1.000%	0.017%	
Hong Kong	629	1.875%	0.003%	
Norway	1,054	2.000%	0.006%	
Sweden	82	2.000%	0.000%	
Others	347,266	0.000%	0.000%	
<b>Total</b>	<b>355,239</b>		<b>0.026%</b>	<b>Row 66</b>

- (1) Represents country of ultimate risk as at 31 December 2018.
- (2) Represents total private sector (excludes Banks and Sovereigns) credit and specific market risk RWA.
- (3) Calculated as each country share of total private sector credit and specific market RWA multiplied by the CCyB applicable in each country.

# Appendices

## 11.5 Entities excluded from Level 2 Regulatory Consolidated Group

The legal entities included within the accounting scope of consolidation, but excluded from the Level 2 Regulatory Consolidated Group are detailed below.

The total assets and liabilities should not be aggregated as some of the entities listed are subsidiaries of other entities included in the table below.

Entity name	Total Assets \$M	Total Liabilities \$M
<b>(a) Securitisation</b>

## 11.6 List of APRA APS 330 Tables

The following schedule lists the quantitative tables in this document as referenced in APRA Prudential Standard APS 330 "Capital Adequacy: Public Disclosure" paragraphs 12, 49 and Attachments A to H.

<b>APS 330 Table</b>	<b>Title</b>	<b>Page No.</b>
Para 12a	Regulatory Balance Sheet	60
Para 12b	Entities excluded from Level 2 Regulatory Consolidated Group	64
Para 12c to 12d	Reconciliation between Detailed Capital Template and Regulatory Balance Sheet	61
Para 49	Summary Group leverage ratio	8
1	Detailed Capital Disclosures Template	56
1.2	Private sector credit exposures by geographic region	15
2	Main features of capital instruments <sup>(1)</sup>	n/a
5a	Total securitisation activity for the reporting period	49
5b	Summary of total securitisation exposures retained or purchased	49
6b to 6f	Basel III capital requirements (risk weighted assets)	9
6e	Capital requirements for operational risk	52
6g	Capital ratios – Level 1 and Major Subsidiaries	6
7b	Credit risk exposure by portfolio type	14
7c	Credit risk exposure by portfolio type and geographic distribution	15
7d	Credit risk exposure by portfolio type and industry sector	16
7e	Credit risk exposure by portfolio type and residual contractual maturity	19
7f (i)	Impaired, past due, specific provisions and write-offs charged by industry sector	21
7f (ii)	Impaired, past due, specific provisions and write-offs charged by portfolio	23
7g (i)	Impaired, past due and specific provisions by geographic region	24
7g (ii)	GRCL by geographic region	24
7h (i)	Movement in collective provisions and general reserve for credit losses	25
7h (ii)	Movement in individual provisions and specific provisions	25
7i	Credit risk exposures by portfolio type and modelling approach	11
7j	General reserve for credit losses	20
8b	Exposures subject to standardised and supervisory risk-weights	25
9b	Internal ratings structure for credit risk exposures and mapping to external ratings	27
9c	PD rating methodology by portfolio segment	27
9d (i)	Non-retail exposures by portfolio type and PD band	28
9d (ii)	Retail exposures by portfolio type and PD band	31
9e	Actual losses by portfolio type	34
9f (i)	Historical loss analysis by portfolio type	35
9f (ii)	Accuracy of risk estimates – PD	36
9f (iii)	Accuracy of risk estimates – LGD and EAD	36
10b and 10c	Credit risk mitigation	37
11b (i)	Counterparty credit risk derivative exposure under the current exposure method	39
11b (ii)	Counterparty credit risk derivative exposure	39
11c	Counterparty credit risk derivative transactions	39
12g (i)	Banking book exposures securitised – traditional securitisation	40
12g (ii)	Banking book exposures securitised – synthetic securitisation	40
12g (iii)	Total banking book exposures securitised	40
12h	Past due and impaired banking book exposures by asset type	41

## 11.6 List of APRA APS 330 Tables (continued)

APS 330 Table	Title	Page No.
12i	Banking book exposures intended to be securitised	41
12j (i)	Banking book activity for the reporting period	42
12k	Banking book securitisation exposures retained or purchased	43
12l (i)	Banking book exposure by risk weighting	44
12l (ii)	Banking book exposure deducted entirely from capital	45
12m	Banking book exposures subject to early amortisation	45
12n	Banking book resecuritisation exposures	45
12o (i)	Trading book exposures securitised – traditional securitisation	45
12o (ii)	Trading book exposures securitised – synthetic securitisation	45
12o (iii)	Total trading book exposures securitised	45
12p	Trading book exposures intended to be securitised	45
12q	Trading book activity for the reporting period	45
12r	Trading book exposures subject to APS 116	45
12s	Trading book exposures retained or purchased subject to APS 120	46
12t (i)	Trading book exposures retained/purchased subject to IMA	46
12t (ii)	Trading book exposures subject to APS 120 by risk weighting	47
12u (i)	RWA of trading book exposures retained/purchased subject to IMA	47
12u (ii)	Capital requirements (RWA) of trading book exposures subject to APS 120 by risk weighting	48
12u (iii)	Trading book exposures entirely deducted from capital	49
12v	Trading book exposures subject to early amortisation	49
12w	Trading book resecuritisation exposures	49
13b	Traded market risk under the Standard Method	51
14f (i)	Value-at-Risk and Stressed Value-at-Risk for trading portfolios under the Internal Model Approach	51
14f (ii)	Summary table of the number of Back-testing Outliers	51
14f (iii)	Details of Back-test Outliers	52
14f (iv)	Comparison of VaR estimates with actual gains/losses experienced	52
16b to 16f	Equity investment exposures	50
17b	Interest Rate Risk in the Banking Book	52
18	Leverage ratio disclosure template	59
19	Summary comparison of accounting assets vs leverage ratio exposure measure	59
20	LCR disclosure template	53
21	NSFR disclosure template	54
22g to 22k and 22A	Remuneration disclosures <sup>(1)</sup>	n/a
23	Potential G-SIB disclosure template <sup>(1)</sup>	n/a

(1) Details can be found at [www.commbank.com.au/investors](http://www.commbank.com.au/investors).

## 11.7 List of Supplemental Tables and Diagrams

<b>Title/Description</b>	<b>Page No.</b>
Summary Group Capital Adequacy Ratios (Level 2)	2
APS 330 reporting structure	3
Summary Group Capital Adequacy Ratios (Level 2)	6
Regulatory Capital Framework Comparison	7
Explanation of change in Credit Risk RWA	10
Explanation of change in Credit Risk exposure	11
Reconciliation of Australian Accounting Standards and, APS 220 based credit provisions and APS 330 Table 7j – General reserve for credit losses	20
Other Assets (subject to standardised risk weights)	26
Traded Market Risk RWA by Modelling Approach	51

## 11.8 Glossary

<b>Term</b>	<b>Definition</b>
Additional Tier 1 Capital	Additional Tier 1 Capital is a Basel III defined concept and consists of high quality capital that essentially includes providing a permanent and unrestricted commitment of funds, is freely available to absorb losses, ranks behind the claims of depositors and other more senior creditors in the event of a wind-up, and provides for fully discretionary capital distributions.
Advanced Internal Ratings Based (AIRB) Approach	Used to measure credit risk in accordance with the Group's Basel III accreditation that allows the Group to use internal estimates of PD, LGD and EAD for the purposes of calculating regulatory capital.
Advanced Measurement Approach (AMA)	Used to measure operational risk in accordance with the Group's Basel III accreditation that allows the Group to use its own internal model for the purposes of calculating regulatory capital.
Australian Accounting Standards	The Australian Accounting Standards as issued by the Australian Accounting Standards Board (AASB).
Australian Prudential Regulation Authority (APRA)	The regulator of banks, insurance companies and superannuation funds, credit unions, building societies and friendly societies in Australia.
Authorised Deposit-taking Institution (ADI)	Includes banks, building societies and credit unions which are authorised by APRA to take deposits from customers.
ADI Prudential Standards (APS)	APRA's ADI Prudential Standards. For more information, refer to the APRA website.
ASB	ASB Bank Limited – a subsidiary of the Commonwealth Bank of Australia that is directly regulated by the Reserve Bank of New Zealand.
Bank	Basel asset class – includes claims on ADIs and overseas banks.
Basel II	Refers to the Basel Committee on Banking Supervision's Revised Framework for International Convergence of Capital Measurement and Capital Standards issued in June 2006 and as subsequently amended.
Basel 2.5	Refers to the Basel II framework revised (2009) to include additional requirements such as the Incremental Risk Charge (IRC), Stressed VaR (SVaR), the treatment of securitisation exposures and the Comprehensive Risk Measure (CRM) for certain correlation trading activities.
Basel III	Refers to the Basel Committee on Banking Supervision's framework for more resilient banks and banking systems issued December 2010 (revised June 2011) and Capital requirements for bank exposures to central counterparties (July 2012).
BoComm Life	BoComm Life Insurance Company Limited – an associate of the Group.
CBA	Commonwealth Bank of Australia – the head entity of the Group.
Central counterparty (CCP)	A clearing house that interposes itself between counterparties to contracts traded in one or more financial markets, thereby ensuring the future performance of open contracts.
Collective provision	All loans and receivables that do not have an individually assessed provision are assessed collectively for impairment. The collective provision is maintained to reduce the carrying value of the portfolio of loans to their estimated recoverable amounts. These provisions are reported in the Group's Financial Statements in accordance with Australian Accounting Standards (AASB 9 Financial Instruments) which was adopted by the Group on 1 July 2018.
Committed Liquidity Facility (CLF)	The Reserve Bank of Australia (RBA) provides the CLF to participating ADIs under the LCR, as a shortfall in Commonwealth government and Semi-government securities exists in Australia. ADIs can draw under the CLF in a liquidity crisis against qualifying securities pledged to the RBA. The amount of the CLF for each ADI is set by APRA annually.

---

## 11.8 Glossary (continued)

Term	Definition
Common Equity Tier 1 (CET1) Capital	The highest quality of capital available to the Group reflecting the permanent and unrestricted commitment of funds that are freely available to absorb losses. It comprises ordinary share capital, retained earnings and reserves less prescribed deductions.
Corporate	Basel asset class - includes commercial credit risk where annual revenues exceed \$50 million.
Credit Valuation Adjustment (CVA) Risk	The risk of mark-to-market losses related to deterioration in the credit quality of a derivative counterparty.
Exposure at Default (EAD)	The extent to which a bank may be exposed upon default of an obligor.
Extended Licenced Entity (ELE)	APRA may deem an entity of an ADI to be part of the ADI itself for the purposes of measuring the ADI's exposures to related entities.
External Credit Assessment Institution (ECAI)	For example: Moody's Investor Services, S&P Global Ratings or Fitch Ratings.
General Reserve for Credit Losses (GRCL)	APS 220 requires the Group to establish a reserve that covers credit losses prudently estimated, but not certain to arise, over the full life of all individual facilities making up the business of the ADI. Most of the Group's collective provisions are included in the GRCL. An excess of required GRCL over the Group's collective provisions is recognised as a deduction from CET1.
Group	Commonwealth Bank of Australia and its subsidiaries.
Impaired Assets	Facilities are classified as impaired where there is doubt as to whether the full amounts due, including interest and other payments due, will be achieved in a timely manner.
Individual provisions	Provisions made against individual facilities in the credit-rated managed segment where there is objective evidence of impairment and full recovery of principal and interest is considered doubtful. These provisions are as reported in the Group's Financial Statements in accordance with the Australian Accounting Standards (AASB 9 Financial Instruments). Also known as individually assessed provisions or IAP.
Interest Rate Risk in the Banking Book (IRRBB)	The risk that the Bank's profit derived from Net Interest Income (interest earned less interest paid), in current and future periods, is adversely impacted from changes in interest rates. This is measured from two perspectives; firstly by quantifying the change in the net present value of the Balance Sheet's future earnings potential and secondly, as the anticipated change to the Net Interest Income earned over 12 months. The APS117 IRRBB regulatory capital requirement is calculated using the net present value approach.
Level 1	Represents the ADI and each entity of the ADI that has been approved as an ELE by APRA.
Level 2	The level at which the Group reports its capital adequacy to APRA being the consolidated banking group comprising the ADI and all of its subsidiary entities other than the insurance and funds management entities and entities through which securitisation of Group assets is conducted. This is the basis on which this report has been produced.
Level 3	The conglomerate group including the Group's insurance and wealth management business.
Leverage Ratio	Tier 1 Capital divided by Total Exposures, with this ratio expressed as a percentage.
Liquidity Coverage Ratio (LCR)	The LCR is a quantitative liquidity measure that is part of the Basel III reforms. It was implemented by APRA in Australia on 1 January 2015. It requires Australian ADIs to hold sufficient liquid assets to meet 30 day net cash outflows projected under an APRA-prescribed stress scenario.
Loss Given Default (LGD)	The fraction of EAD that is not expected to be recovered following default.
Net Cash Outflows	Net cash outflows in the LCR are calculated by applying prescribed run-off factors on liabilities and various Off Balance Sheet exposures that can generate a cash outflow in the next 30 days.

# Appendices

## 11.8 Glossary (continued)

<b>Term</b>	<b>Definition</b>
Net Stable Funding Ratio (NSFR)	The NSFR is the ratio of the amount of available stable funding (ASF) to the amount of required stable funding (RSF). ASF is the portion of an ADI's capital and liabilities expected to be a reliable source of funds over a one year time horizon. RSF is a function of the liquidity characteristics and residual maturities of an ADI's assets and off-balance sheet activities.
Other Assets	Basel asset class – primarily includes Cash, Investments in Related Entities, Fixed Assets and Margin Lending.
Other Retail	Basel asset class – primarily includes retail credit exposures not otherwise classed as a residential mortgage, SME retail or a qualifying revolving retail asset.
Past Due	Facilities are past due when a contracted amount, including principal or interest, has not been met when due or it is otherwise outside contracted arrangements.
Probability of Default (PD)	The likelihood that a debtor fails to meet an obligation or contractual commitment.
Qualifying Revolving Retail (QRR)	Basel asset class – represents revolving exposures to individuals less than \$0.1m, unsecured and unconditionally cancellable by the Group. Only Australian retail credit cards qualify for this AIRB asset class.
RBA	Reserve Bank of Australia.
RBNZ	Reserve Bank of New Zealand.
Residential Mortgage	Basel asset class – retail exposures secured by residential mortgage property.
Risk Weighted Assets (RWA)	The value of the Group's On and Off Balance Sheet assets are adjusted by risk weights calculated according to various APRA prudential standards. For more information, refer to the APRA website.
SARB	South African Reserve Bank.
Scaling Factor	In order to broadly maintain the aggregate level of capital in the global financial system post implementation of Basel II, the Basel Committee on Banking Supervision applies a scaling factor to the risk weighted asset amounts for credit risk under the IRB approach of 1.06.
Securitisation	Basel asset class – Group-originated securitised exposures and the provision of facilities to customers in relation to securitisation activities.
SME Corporate	Basel asset class – Small and Medium Enterprise (SME) commercial credit risk where annual revenues are less than \$50 million and exposures are greater than \$1 million.
SME Retail	Basel asset class – Small and Medium Enterprise (SME) exposures up to \$1 million that are not secured by residential mortgage property.
SME Retail Secured by Residential Mortgage	Basel asset class – Small and Medium Enterprise (SME) exposures up to \$1 million that are partly or fully secured by residential mortgage property.
Sovereign	Basel asset class – primarily includes claims on Australian and foreign governments, central banks (including Reserve Bank of Australia), international banking agencies and regional development banks.
Specialised Lending	Basel asset classes subject to the supervisory slotting approach and which include Income Producing Real Estate (IPRE), object finance, project finance and commodity finance.
Specific Provisions	APS 220 requires ADIs to report as specific provisions all provisions for impairment assessed by an ADI on an individual basis in accordance with the Australian Accounting Standards and that portion of provisions assessed on a collective basis which are deemed ineligible to be included in the General Reserve for Credit Losses (which are primarily collective provisions on some defaulted assets).

Stressed VaR (SVaR)	Stressed Value at Risk (SVaR) uses the same methodology as Value at Risk (VaR) except that the historical data used is taken from a one year observation period of significant market volatility as seen during the Global Financial Crisis.
Tier 1 Capital	Comprises CET1 and Additional Tier 1 Capital.
Tier 2 Capital	Capital items that fall short of the necessary conditions to qualify as Tier 1 Capital.
Total Exposures (as used in the Leverage Ratio)	The sum of On Balance Sheet items, derivatives, securities financing transactions (SFTs), and Off Balance Sheet items, net of any Tier 1 regulatory deductions that are already included in these items, as outlined in APS 110 “Capital Adequacy” (APS 110) Attachment D.
